PUBLIC STUDENT BUILD BRIEF / 17 NOVEMBER 2026

Faster monthly finance consolidation

Renewable World (RW)

United Kingdom, Kenya, and Nepal

THE NEED

Finance staff combine QuickBooks accounts for Kenya, Nepal, and the UK, convert currencies, prepare a consolidated view, and check balances by hand. This can take a week each month.

FIRST BUILD

- Import synthetic reports; plan later read-only QuickBooks imports
- Apply clear exchange rates and account mappings to draft a consolidated report and journal
- Flag mismatches for staff review

IMPORTANT LIMITS

- No real financial, donor, or beneficiary records in student work.
- Direct QuickBooks imports require approval and read-only access. Never post to live ledgers.
- Staff review all outputs; keep rules and costs clear.

FIRST REVIEW

Staff compare the synthetic-data draft with a manual consolidation for accuracy, mapping, and time saved.

WHAT TO SUBMIT

Submit a PDF showing imports, exchange rates, mappings, mismatches, draft output, and a read-only integration and security plan.

Get paid $100 for a successful project submission.

Complete a solution that meets the brief. A proposal alone does not qualify.
